The call to order will be at 10 o'clock a. m. of Tuesday, October 12th, and the session will doubtless be concluded on the 13th.  
Livestock raisers of New Mexico and Arizona, and from adjoining states, together with the representatives of all connected interests will be cordially welcomed at the convention, and also at the association's office in Albuquerque to be opened for a few days preceding the meeting.  
The visit of President William H. Taft to Albuquerque at the time; the called meeting there of all field inspectors of the Cattle Sanitary board for the same date, the concentration of officials and ranchers for the third district, U. This organization of cattle and horse growers was effected a year ago at the time of the National Irrigation congress in Albuquerque, and it was so done by the advice of the governor and the Cattle Sanitary board, who felt that the spirit of combination and co-operation, now successful

The same opinion was also held by thinking stockmen; and enough of them at once took hold to quickly lay the foundation of a future, powerful association. Since then, plans have been cautiously but sufficiently advanced; and, at the coming convention, conference is desired with as many interested cattle and horse growers as can conveniently attend, when opportunity will also be given all to present ideas, grievances, etc.

The temporary address of the association's secretary is now at Magdalena, N. M., and there communications can be sent by those unable to appear in convention.

## A hat full of coal lasts all night in COLE'S HOT BLAST

That is a tremendous fact for users of heaters.  
Your fire is never out!

A hat full of coal in a Cole's Hot Blast burns all night, and in the morning instead of building the fire, shivering in a chilled room and waiting for the fire to heat up, you open a draft only.

And there is fuel enough left to warm up iced.

We not only say this. We guarantee it, and our word is backed by the largest manufacturer of soft coal heaters in America.

We guarantee a saving in fuel of a third. This is a conservative guarantee. You really save one-half to 60 per cent of your winter's fuel bill by using this stove.

In fact, our guarantee on Cole's Hot Blast is

the most sweeping statement ever put behind a heater, and it puts us in the lead of all stove dealers.

Let us show you this remarkable heater—this clean stove—this continuous fire holder—this expense cutter—this beauty.

Cole's Hot Blast \$10 Up

Take note that this heater burns soft coal, hard coal, wood, slack, lignite or coals—and we guarantee it against any heater, size for size, at twice or three times its price.

Ours is the Original Cole's Hot Blast, with the name Cole's on the feed door.
